

Morgan Multimedia Mjpeg Codec Upgrade Howto

Morgan Multimedia MJPEG codec V2 to V3 upgrade (#138347)

For V2 registered users only !!!

Please prepare your V2 User Name and V2 License Key.
To find your V2 User Name and V2 License Key use MMTray or check the file M3JPEG.INI located in the Windows or WinNT directory of your hard drive.

IMPORTANT ! You must enter V2 User Name and V2 License Key EXACTLY as given. You must respect upper and lower case. Note that V2 License Key is always in upper case.

Feel free to send a mail to m3peg@morgan-multimedia.com if you have any kind of problem about your V2 User Name and V2 License Key.

Playback hardware M-JPEG AVI files (Rainbow Runner, DC30, Buz, ...) without the specific hardware codec. Realtime software M-JPEG compression on capture cards that does not perform hardware compression (ATI All In Wonder Pro, Hauppauge WinTV, Miro PCTV, ...). Video Editing of M-JPEG projects without the specific hardware codec. Software M-JPEG AVI files can be played back by hardware codecs (Rainbow Runner, Buz, ...). Win9x, WinNT, Video for Windows, ActiveMovie & DirectShow, Adobe Premiere, Ulead Media Studio compliant. MMX and 3DNow! optimized. DirectDraw YUV accelerated overlay output supported (YUY2, UYVY, ...). Most of the M-JPEG formats supported (4:2:2, 4:1:1, 4:2:0, MJPG, dmb1, jpeg). New in V2 : Better decompression quality in 'Fast Integer + MMX' mode. Better YUV to RGB color conversion for decompression in 'Fast Integer + MMX' mode. A lot faster decompression speed without any quality loss in 'Fast Integer + MMX' mode. SMP support for decompression in 'Fast Integer + MMX' mode. Some bug fixes and improvements in compression core. DirectShow filters (Decoder/Encoder). One field (Half width/Half height) decompression option (DirectShow filter/YUY2 mode only). Common .inf installation file for all Windows versions (9x/me/NT4/2K). OEM logo, text, URL and seamless installation capabilities.
