This powerful and easy to use word count program allows you to count: words, characters with spaces, characters without spaces, lines (customizable char number or gross lines), pages (customizable char, word, line number) in MS Word, MS Excel, MS PowerPoint, Corel WordPerfect, HTML and Adobe Acrobat PDF. PractiCount counts text in single files, folders and folders with subfolders. With several clicks you can make project estimations and customer-ready invoices that can be customized to your liking. The customer information can be stored in the built-in client database. A must-have software for translators, transcriptionists, authors, project managers and other language professionals requiring text count in their work.
